□ (912) 555-4321

SUMMARY

Richard hails from Tulsa. He has earned degrees from the University of Oklahoma and Stanford. (Go Sooners and Cardinal!) Before starting Pied Piper, he worked for Hooli as a part time software developer. While his work focuses on applied information theory, mostly optimizing lossless compression schema of both the length-limited and adaptive variants, his non-work interests range widely, everything from quantum computing to chaos theory. He could tell you about it, but THAT would NOT be a "length-limited" conversation!

EXPERIENCE

CEO/President - Pied Piper, Palo Alto, CA

2013-12-01 - 2014-12-01

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

PROJECTS

Miss Direction

Team lead, Designer

2016-08-24 - 2016-08-24

A mapping engine that misguides you

- Won award at AlHacks 2016
- Built by all women team of newbie programmers
- Using modern technologies such as GoogleMaps, Chrome Extension and Javascript

EDUCATION

University of Oklahoma

Bachelor | Information Technology

2011-06-01 - 2014-01-01

- DB1101 Basic SQL
- CS2011 Java Introduction

AWARDS

Hooli 2014-10-01 Innovative middle-out compression algorithm that changes the way we store data. **SKILLS** Web Development master HTML CSS Javascript Compression master Mpeg MP4 **GIF LANGUAGES English** Native speaker **INTERESTS** Wildlife ferrets unicorns
